- ✓ **GROUPS (with reservation), at any desired date:** contact us at least one week before via info@ambientecultura.it

The visit is led by an archaeologist in English or French.

The profits of the years 2014 and 2015 have been used to the creation of Experimental Archaeology Garden. The profit of 2013 has been destined to the restoration of the Mastodont of Verduno, fossil partially destroyed in the summer 2012 by the negligence of people. The profits of the years 2016 and 2017 will be used to the recovery of the crypt of Santa Maria Maddalena's Church in Alba.

- ✓ **DECEMBER** Saturday 7th and Sunday 8th, Saturday 14th & Sunday 22nd

THE PROJECT

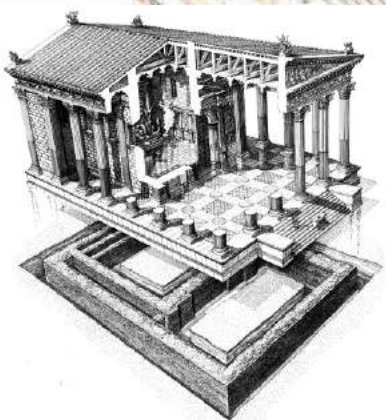

Underground Alba

The "Underground Alba" project was launched in Spring of 2011. It is administrated by "Ambiente & Cultura", with the patronage of the Ministry of Culture and of the Archaeological Superintendence of Piedmont and MAE.

Since the time of Alba Pompeia (that was the name of the city during the Roman times), the historic centre of the city has seen a sequence of generations of town, belonging to different civilization, one after the other, in the same place. The medieval town grew up on the ruins belonging to the Roman period, the modern town took its place without cancelling it completely, and so on, we arrived at today's town that still retains the urban shape of Alba Pompeia.

Many things have remained in the heart of the underground city as evidence of the past two thousand years of history. A few meters below the streets and the sidewalks, there are fragments of lost cities which constitute the rich heritage of the F. Eusebio Museum and of the archaeological and architectural city path.

The ancient temple, the roman age theatre and forum, the mosaics and the domus, the bastions of the defensive walls, the warehouse barrack, the first baptismal font, the lost medieval towers.
